# Inspired by Nature

**Desert** lends a feeling of vast, open spaces to the indoors with its subtly layered organic design. Like the shifting sands of the desert, this textured carpet tile allows you to play with the space to create a serene flooring scheme with a wide range of colours that vary from neutral tones to vibrant shades.

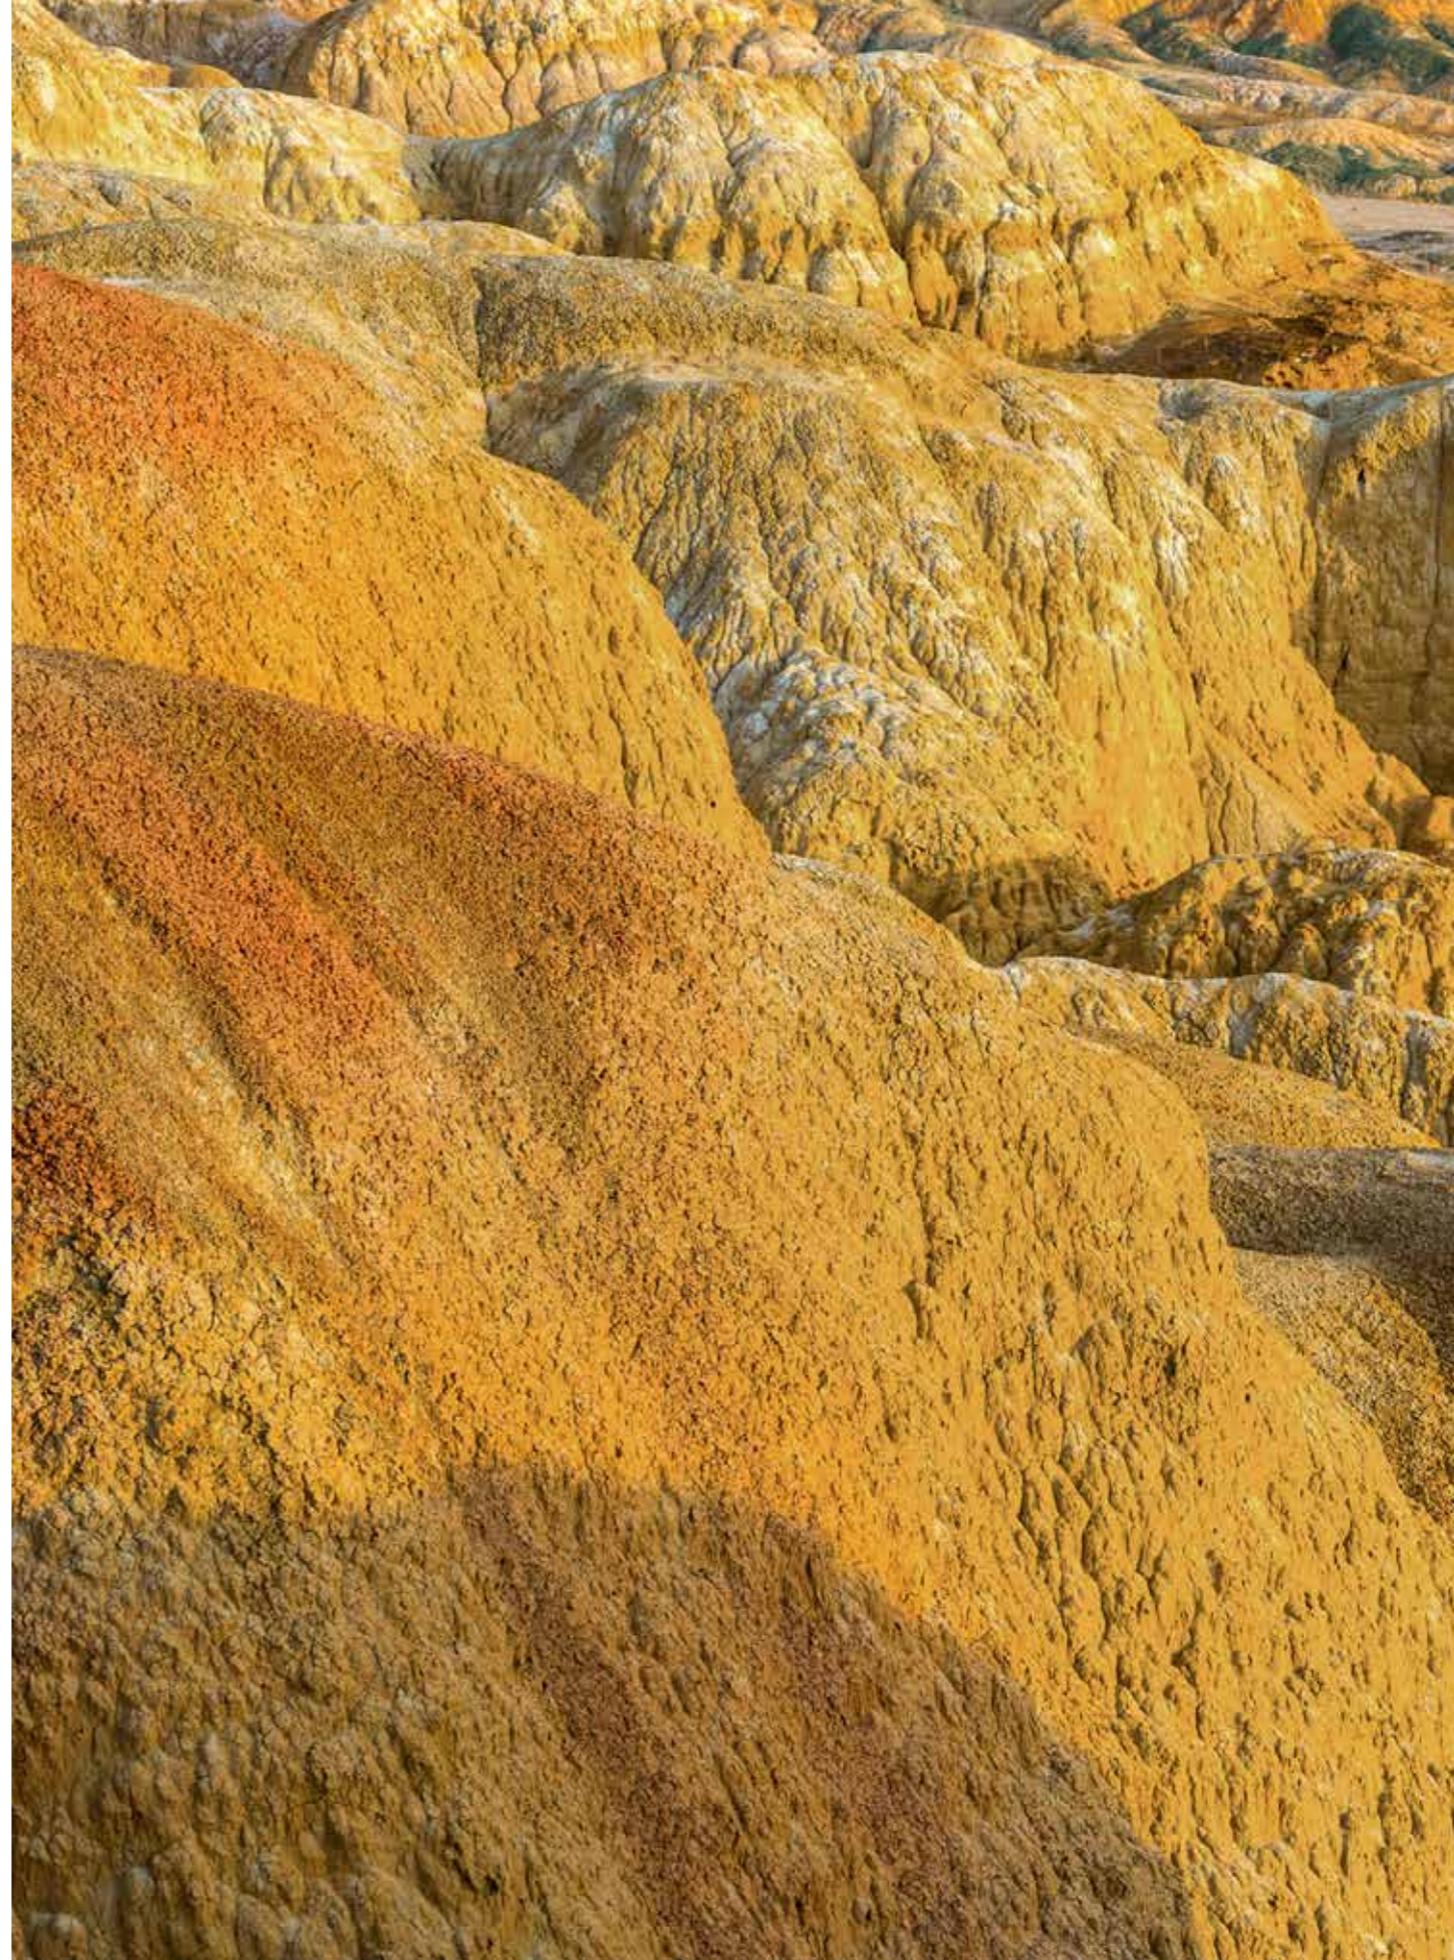

---

**Desert** donne une sensation d'ouverture et d'espace aux intérieurs, grâce à son design organique subtil. Comme les sables du désert, en mouvement incessant, cette dalle de moquette texturée permet de jouer avec l'espace pour créer un sol propice à la sérénité avec une large gamme de couleurs qui varient des tons neutres aux tons vibrants.

**Desert** benadrukt het gevoel van wijde, open ruimten in de binnenomgeving door zijn subtiel gelaagde, organische ontwerp. Zoals het zand beweegt in de woestijn, zo geeft deze tapijttegel de mogelijkheid te spelen met de ruimte en een serene vloerontwerp te creëren. Het kleurenpalet bestaat uit neutrale tinten en levendige kleuren.

---

**Desert** verleiht Räumen mit ihrem subtil geschichteten organischen Design eine Atmosphäre weiter, offener Landschaften. Sie bietet ein lebendiges Flächenbild, ähnlich wie bei Dünen sand. Die strukturierte Teppichfliese wird in neutralen Tönen und leuchtenden Farben angeboten.

# DESSO SoundMaster® Lite

## OPTIONAL BACKING DESSO SOUNDMASTER LITE

Less noise means more productive workforces. Quieter environments prevent health problems occurring<sup>1</sup>, reduce stress levels and improve concentration. That is why good sound absorption and sound insulation is so important. DESSO SoundMaster Lite achieves an improvement in sound absorption performance up to +0.15 ( $\alpha_w$ )<sup>2</sup>, equivalent to up to +100% improvement in comparison to standard carpet designs ( $\alpha_w$  value between 0.15 and 0.20)<sup>3</sup>. This felt backing is made from 100% polyester (80% recycled) and is specifically chosen for its advanced sound insulation and absorption properties.

- 1 Environmental Noise and Health in the UK, Health Protection Agency, p.57-58, Noise in figures, European Agency for Safety and Health at Work, p.70-73.
- 2 Tests performed at SWA (Schall- und Wärmestelle Aachen GmbH) – Institut für schalltechnische und wärmetechnische Prüfungen - Beratung - Planung.
- 3 To compare: other flooring solutions (non-carpet) generally give a value between 0.05 and 0.10.

## OPTIONELE DESSO SOUNDMASTER LITE TAPIJTRUG

Minder geluid maakt dat mensen beter kunnen werken. Een geluidsarme omgeving voorkomt gezondheidsproblemen<sup>1</sup>, vermindert stress en verbetert de concentratie. Daarom is een goede geluidsabsorptie en geluidsisolatie zo belangrijk. DESSO SoundMaster Lite verbetert de geluidsabsorptie met maximaal +0,15 ( $\alpha_w$ )<sup>2</sup>, wat overeenkomt met een +100% verbetering ten opzichte van standaard tapijtonwerpen ( $\alpha_w$ -waarde tussen 0,15 en 0,20)<sup>3</sup>. Deze viltrug is gemaakt van 100% polyester (80% gerecycled) en is specifiek geselecteerd vanwege de geavanceerde geluidsisolatie en geluidsabsorptie.

- 1 Environmental Noise and Health in the UK, Health Protection Agency, p.57-58, Noise in figures, European Agency for Safety and Health at Work, p.70-73.
- 2 Onderzoeken uitgevoerd bij SWA (Schall- und Wärmestelle Aachen GmbH) – Institut für schalltechnische und wärmetechnische Prüfungen - Beratung - Planung.
- 3 Ter vergelijking: andere vloeroplossingen (anders dan tapijt) geven over het algemeen een waarde tussen 0.05 and 0.10.

## SOUS-COUCHE OPTIONNELLE DESSO SOUNDMASTER LITE

Quand il y a moins de bruit, le niveau de productivité du personnel augmente. Les environnements moins bruyants préviennent l'apparition de problèmes de santé<sup>1</sup>, réduisent les niveaux de stress et améliorent la concentration. C'est pourquoi il est si important d'assurer une bonne absorption et une bonne isolation acoustiques. DESSO SoundMaster Lite produit une amélioration des performances d'absorption acoustique de jusqu'à +0,15 ( $\alpha_w$ )<sup>2</sup>, ce qui équivaut à une amélioration de +100% par rapport aux moquettes standard (valeur  $\alpha_w$  comprise entre 0,15 et 0,20)<sup>3</sup>. Cette sous-couche de feutre se compose de 100% de polyester (80% recyclé) et a été spécifiquement sélectionnée pour ses propriétés avancées d'isolation et d'absorption acoustiques.

- 1 Environmental Noise and Health in the UK, Health Protection Agency, p.57-58, Le bruit en chiffres, Agence européenne pour la sécurité et la santé au travail, p. 70-73.
- 2 Tests effectués à SWA (Schall- und Wärmestelle Aachen GmbH) – Institut für schalltechnische und wärmetechnische Prüfungen - Beratung - Planung.
- 3 À titre de comparaison : les autres revêtements de sol (sauf les tapis et moquettes) donnent en général des valeurs entre 0,05 et 0,10.

## OPTIONALE DESSO SOUNDMASTER LITE RÜCKENBESCHICHTUNG

Weniger Lärm bedeutet produktivere Mitarbeiter. Ruhigere Umgebungen verhindern das Auftreten gesundheitlicher Probleme<sup>1</sup>, reduzieren Stress und verbessern die Konzentration. Aus diesem Grund ist eine gute Schallabsorption und -dämmung so wichtig. DESSO SoundMaster Lite verbessert die Schallabsorption um bis zu +0,15 ( $\alpha_w$ )<sup>2</sup>, was einer Verbesserung um +100% im Vergleich zu herkömmlichen Teppichböden entspricht ( $\alpha_w$ -Wert zwischen 0,15 und 0,20)<sup>3</sup>. Der Teppichrücken besteht aus 100% Polyester (80% recycelt) und wurde speziell aufgrund seiner hervorragenden akustischen Eigenschaften ausgewählt.

- 1 Environmental Noise and Health in the UK, Health Protection Agency, S. 57-58, Noise in figures, European Agency for Safety and Health at Work, S. 70-73.
- 2 Die Tests wurden von der SWA (Schall- und Wärmestelle Aachen GmbH) durchgeführt Institut für schalltechnische und wärmetechnische Prüfungen - Beratung - Planung.
- 3 Zum Vergleich: Andere Fußbodenlösungen (keine Teppichbeläge) weisen normalerweise einen Wert zwischen 0,05 und 0,10 auf.
